Principle 1

Lay solid foundations for management and oversight

Recommendation 1.1 - Compliant

The Board's role is to govern the group, while it is the role of executive management to manage the group in accordance with the direction of the Board. The Board has the final responsibility for the successful implementation of the strategies, and the ongoing operations and performance of the company.

The detailed functions and responsibilities of the Board include:

- determining the vision and objectives of the company;
- formulating short and long term strategies to enable the company to achieve its objectives, and ensuring adequate resources are available to meet strategic objectives;
- reviewing periodically the process, outcomes and effectiveness of the company's decisions and strategies;
- appointing and approving the terms and conditions of the chief executive officer (CEO);
- endorsing the terms and conditions of the appointments of senior executives through the remuneration committee;
- reviewing the performance of the CEO and other senior executives;
- overseeing the implementation and monitoring of compliance, including policies such as the code of conduct;
- reviewing strategies to manage material business risks pertaining to the company's operations and internal control systems;
- approving major operating and capital budgets, and material variations to those budgets;
- approving all mergers, acquisitions and disposals of projects and businesses;
- approving processes, procedures and internal control systems relating to financial reporting; and
- approving periodic financial reports.

A copy of the Board charter is available on the company's website.

Recommendation 1.2 – Compliant

The Company has in place an external supplier to undertake appropriate checks on any potential director appointments (if required by the board in addition to their internal checking).

Under the Company's Constitution, all directors appointed throughout the year as an additional director or to fill a casual vacancy hold office to the AGM. Current directors hold office and are required to be considered by Shareholders for re-election under the Listing Rules.

All directors, whether appointed throughout the year as an additional director or to fill a casual vacancy or who are due for election under the Listing Rules, are disclosed in the Notice of AGM, with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director. The company's constitution provides that at each annual general meeting, one third of the Board (other than any managing director in office from time to time) or, if their number is not a multiple of three, the number nearest to one third, must retire and, if the retiring directors so chose, may offer themselves for re-election.

Recommendation 1.3 – Compliant

On appointment, directors are provided with a formal letter of appointment and executive management with written employment agreements incorporating job descriptions (where relevant).

Recommendation 1.4 – Compliant

The company secretarial role is held jointly by David Franks and Andrew Bursill. The company secretaries are accountable to the board through the chairman on corporate governance matters pertaining to the company secretarial role. All directors have access to the company secretaries.

Recommendation 1.5 – Partially Compliant

The company has a workforce comprising individuals with diverse skills, values, background and experiences. The company values this diversity and recognises the organisational strength and opportunities that it brings. The

company is committed to providing an environment in which all employees are treated with fairness and respect and have equal access to opportunities at work.

The company has adopted a diversity policy.

As at 30 June 2016 and 30 June 2015, the company had the following number of women employed at the following levels:

	2016	2016	2016	2015	2015	2015
Description	Number of women	Total employees	Proportion of women	Number of women	Total employees	Proportion of women
Whole organisation	1	6	16.7%	-	3	0%
Management positions	-	4	0%	-	2	0%
Board members	-	5	0%	-	4	0%

The Company does not presently have set targets for the representation of women employees in senior executive positions and on the Board. However the Board will seek to promote and increase diversity within the organisation as positions and appropriately skilled candidates become available.

The Company defines 'senior executive' or 'management positions' as those persons who have the responsibility for planning and directing their business division's operations.

Recommendation 1.6 – Compliant

From time to time, the Board evaluates its performance and the performance of its committees and individual directors. There are currently no formal policies in place for these evaluations. The company believes the informal processes adopted are effective and efficient at the current time.

The Board, its committees and non-executive directors continually monitors its performance during the year in accordance with the processes described above.

Recommendation 1.7 – Compliant

For the year ended 30 June 2016, the company had four senior executives, in addition to the CEO/Managing Director Bradley Lingo, being the Corporate CFO Alexander Hunter, Corporate COO David Evans, President of Elk Petroleum Inc Scott Hornafius and USA COO Brian Dolan. Given the size and the nature of the company's operations, the performance of these executives is monitored on an ongoing basis by the CEO/Managing Director. The performance of the CEO/Managing Director is monitored on an ongoing basis by the non-executive directors. The company believes these informal processes adopted are effective and efficient at the current time.

A performance evaluation of the executives in accordance with the processes described above is presently being undertaken.

Principle 2 **Structure the Board to add value**

Recommendation 2.1 – Not Compliant

Recommendation 2.1 is that the Board should establish a nomination committee. Due to the size of the company and the Board, no nomination committee has been established. The duties and responsibilities typically delegated to such a committee are considered to be the responsibility of the full Board, given the size and nature of the company's activities. In the commentary for Recommendation 2.1, it is noted that for smaller boards, the same efficiencies may not be derived from a formal committee structure. The Board does not believe that any marked efficiencies or enhancements would be achieved by the creation of a separate nomination committee.

The company is engaged in the oil and gas exploration and production business. The critical skills required by the Board in pursuing the company's business plan continue to be expert geological, engineering and exploration and evaluation project management skills together with strong fiscal management skills. In addition, each director is charged with having a thorough understanding of and responsibility for the protection of the rights of the company and its shareholders.

The Board considers the following factors when selecting new directors and when recommending directors to shareholders for appointment or re-election:

- the aim of having a majority of independent directors on the Board and of having an independent non-executive chairman;
- that between them, the directors have appropriate range of skills, expertise, experience and diversity to discharge the Board's mandate;
- that each individual Board member has sufficient time to meet his/her commitments as a director of the company;
- the duration of each existing director's tenure, noting the retirement provisions of the Constitution, as set out above; and
- whether the size of the Board is appropriate to facilitate effective discussions and efficient decision making.

There is no nomination committee charter (as no such committee is in place).

Recommendation 2.2 – Compliant

The Board has developed a Board skills matrix, to simplify the process for identifying any 'gaps' in the Board's skills, expertise and experience. As part of the review of the skills matrix the Board monitor the skills, expertise and experience that are relevant to the company and assesses those requirements against the collective attributes of the directors. The Board skills matrix will be reviewed by the directors on an annual basis.

The board achieved its assessed skills rating for all criteria, being for skills in Financial/Audit, Legal/Governance, Investor Relations, Risk Management and Compliance, Human Resources/Remuneration, IT/Technology, Marketing/Social Media, Strategic Planning, Government Affairs, Policy Development, Executive Management, International Experience, Listed Company Director Experience, Mining/Resources Experience, Petroleum Specific Industry Experience, EOR Specific Industry Experience, Acquisition skills and Project Management skills.

Details of the Directors' skills, experience, expertise and attendance at meetings are set out in the Directors' Report in each year's Annual Report.

Recommendation 2.3 – Compliant

Throughout the year, the following directors served on the Board: Neale Taylor (non-independent non-executive chairman), Bradley Lingo (non-independent CEO/Managing Director appointed 1 August 2015), Matthew Healy (independent non-executive director), Russell Krause (independent non-executive director) and Timothy Hargreaves (independent non-executive director). The Company is compliant, with the majority of the board considered independent.

The Board annually assesses the independence of each director. For this purpose an independent director is a non-executive director whom the Board considers to be independent of management and free of any business or other relationship that could materially interfere with – or could reasonably be perceived to materially interfere with – the exercise of unfettered and independent judgment, and who:

1. is not a substantial shareholder of the company, is not an officer of, or is not otherwise associated with a substantial shareholder;
2. within the last three years, has not been employed in an executive capacity by the company or group;
3. within the last three years, has not been a principal of a material professional advisor or a material consultant to the company or group, or an employee materially associated with the service provided;
4. is not a material supplier to, or customer of, the company or group, or an officer of or otherwise associated directly or indirectly with a material supplier or customer; and
5. has no material contractual relationship with the company or group, other than as a director.

Matthew Healy, Russell Krause and Timothy Hargreaves have been assessed as independent directors. In reaching that determination, the Board has taken into account (in addition to the matters set out above):

1. the specific disclosures made by each independent director as referred to above;
2. that no independent director has ever been employed by the company or any of its subsidiaries;

3. that no independent director is, or has been associated with a supplier, professional adviser, consultant to or customer of the company which is material under accounting standards; and
4. that no independent director personally carries on any role for the company otherwise than as a director of the company.

Matthew Healy is an associate of the company's major shareholder. Timothy Hargreaves is the Research Director – Resources of another major shareholder. Notwithstanding these relationships, Matthew Healy and Timothy Hargreaves consider themselves independent as they have no financial interest in the respective major shareholders' investments and hold their position as a director of the company personally. The remaining directors concur with these determinations.

The appointment date of each director is disclosed in the Company's Annual report.

Recommendation 2.4 – Compliant

There is a clear division of responsibilities between the chairman and the CEO/Managing Director. The Board has delegated to the CEO/Managing Director the authority to manage the day-to-day operations of the company. The Board ensures that the CEO/Managing Director is appropriately qualified and experienced to discharge his responsibilities.

The chairman's responsibilities are set out in the Board charter, and include leadership of the Board and ensuring the effective performance of the Board.

Recommendation 2.6 – Compliant

The Board implements an induction program for new Directors which involves a detailed briefing in regards to their role as a Director of the Company and the business of the Company. The Board is continually informed by Senior Management of key developments in the Company's business and the industry in which the Company operates.
